

CAROLINA ARAMBURO

Carolina Aramburo and Friends' TOPIC OF THE WEEK

Hello Health, Fun and Well-Being Partners!

In this 284th Newsletter, I want to give us a chance to consider Fluoride and the effects it has on people's physical, mental, emotional and spiritual well-being.

In order to put the rest of the **newsletter in context**: This conversation makes more sense if you've watched my [1st Health Proposal](#) and my [2nd Health Proposal](#). So if you haven't, please pause, go back and watch them.

Fluoride is simply DANGEROUS to our Health ... and you can Avoid it, Prevent it and Heal From the effects of it Naturally!!!

We all have heard about how fluoride reduces cavities but have you heard the **real facts** about fluoride that are seldom discussed? In this NEWSLETTER we address FLOURIDE, the dangers of fluoride, and the many ways that we are **subjected** to fluoride. I urge you to READ this completely and see how you can prevent and heal from the effects of this chemical **toxin**. Water fluoridation is the main way fluoride is being absorbed by our bodies but it not at all the only way. We will give you other ways a little later in this newsletter.

Today, **two thirds** of U.S. public drinking water is fluoridated while public health leaders have maintained that **low doses** of fluoride are safe for people, and good for our teeth. At the same time **hundreds of cities** in the US and around the world and **over 35**

countries, most of which are in the developed part of the world, have rejected fluoride in their water because of the dangers to the planet, animal and human health.

The history of water fluoridation reads like a bad fiction governmental cold war novel except for the fact that is **not fiction at all**. We have included all of the history and details in the research links below this article if you want to know more.

The bottom line, however, is that the entire process and the fact that it was being done to "reduce tooth decay" was **completely a lie** created and utilized to provide evidence, in the 1940s, that fluoride was safe during a time when major industries needed to get rid of toxic waste containing fluoride and the U.S. government needed to **fight lawsuits** about the damage fluoride, a critical component in manufacturing atomic bombs, was causing to the planet, animals and humans.

Many people associate fluoride with its periodic table namesake, fluorine, however fluoride is very different. Fluoride is a compound of fluorine and is a **crude industrial** chemical byproduct ("chemical byproduct" = toxic waste) of aluminum, phosphate, cement, steel, and nuclear weapons manufacturing.

So, through sly public re-education, fluoride, once a **waste product**, became the active ingredient in multibillion dollar industries including fluorinated pesticides, fungicides, rodenticides, anesthetics, **tranquilizers**, fluorinated phar-

maceuticals, and a number of industrial and domestic products, fluorinated dental gels, rinses and toothpastes.

Here is a list of **some products** that now contain fluoride:

- Dental Products
- Processed Beverages & Foods
- Pesticides
- Tea Drinks
- Pharmaceuticals
- Mechanically Deboned Meat, any food in cans and most processed foods
- Teflon and Teflon products such as Gore tex

According to Michael Connett, an attorney with the Fluoride Action Network (FAN), here are at a few of the **important facts** about fluoride that everyone needs to know:

- German and Russian Prisoner war camps utilized (Cont. on next page)

Fluoride to cause damage to a specific part of the brain, making the prisoners passive.

- Most Developed Countries **Do Not Fluoridate Their Water**
- Fluoridated Countries Do Not Have Less Tooth Decay Than Non-Fluoridated Countries
- NIH-funded study on individual fluoride ingestion and tooth decay found no significant correlation.
- Tooth decay **does not** go up when fluoridation is stopped and tooth decay was coming down before fluoridation started.
- The highest doses of fluoride are going into **bottle-fed babies**.
- Fluoride Affects Many Tissues in Your Body Besides Your Teeth
- Fluoridation is Not a "Natural" Process
- 40% of American Teenagers Show Visible Signs of **Fluoride Overexposure**
- For Infants, Fluoridated Water Provides No Benefits, Only Risks
- Fluoride Supplements Have Never Been Approved by the FDA
- Fluoride is NOT an essential nutrient and is the Only "Medicine" Added to Public Water
- Fluoridation is **unethical**, just as any medication would be, without informed consent.
- The dose cannot be controlled and goes to everyone regardless of their vulnerability.
- People now receive fluoride from many other sources besides water.
- Fluoride **accumulates** in the body.
- Any benefit from fluoride is topical not systemic so swallowing Fluoride Provides Little Benefit to Teeth.

- Fluoride may **leach lead** from pipes, brass fittings and soldered joints.
- Damages brain functions and hormones in **fetuses**.

So what are the actual health dangers of fluoride? The following is a list of health problems shown in studies, from **multiple countries**, by independent doctors and scientists that fluoride toxicity can lead to:

- Dental Fluorosis (a discoloring of tooth and **erosion of enamel** from Fluoride)
- Iodine Deficiency: Fluoride in high doses causes increased lead absorption
- Disrupts synthesis of collagen
- Disrupts **DNA repair**
- Hyperactivity and/or lethargy
- Severe chemical burns to the respiratory system
- Muscle disorders
- **Kidney damage**
- Thyroid disease and lower thyroid function
- Arthritis
- **Dementia and Alzheimer's**
- Produces hyperkalemia (elevated serum potassium), hypocalcemia (lowered serum calcium), hypomagnesemia (lowered serum magnesium), and metabolic and respiratory acidosis.
- Skeletal Fluorosis – erosion and damage and deformation to **bones and joints**
- Various Cancers including Bone cancer (osteosarcoma)
- Inactivates 62 enzymes and inhibits more than 100
- Inhibited formation of antibodies and disrupts the **immune system**
- Genetic damage and cell death
- Damages sperm, lowers testosterone and increases infertility
- Extensive **Brain damage** including calcification and damage to the Pineal Gland
- **Nervous system degeneration**
- Fluorides cause premature aging

With a Completely Natural Diet and Lifestyle YOU do NOT have to suffer from the Effects of Fluoride plus You can have Perfectly Healthy Teeth!!!!

In this article we are going to give you **solutions** for ways to both avoid fluoride and prevent fluoride poisoning. We are also going to share with you about ways to remove fluoride **buildup** that may already be in your body!

Here are some basic **precautions** you can take to stop absorbing fluoride into your body by eliminating the sources of fluoride such as:

- Fluorinated water or any kind of water that is **not fluoride free**.
- Any foods that are not certified organic and fresh. (Most processed food utilize fluoride as a preservative, avoid all mechanically deboned chicken – including nuggets and **baby food**, avoid all processed foods including foods in cans of any type)
- **Dental treatments** such as fluoride gel treatments or any others that utilize fluoride to “protect” teeth, including those placed under dental sealants.
- **Toothpaste** or mouthwash with fluoride
- Most **bottled juice and bottled water**, all sodas, green and black tea, any non-organic wine and grape juices. (They are treated with cryolite, which contains fluoride and often prepared with fluoridated water).
- **Non-stick cookware** (Teflon pans, or anything made from Teflon)
- Fluoridated salt and any black or red rock salt
- **Prescription medications** that contain fluoride (estimates are that 30-50% of drugs now contain fluoride such as Cipro and Prozac)
- **Anesthetics** such as Isoflurane, Sevoflurane, and Enflurane
- Insecticides and Pesticides for the home

What is safe to drink and eat? Fresh **100% Certified Organic Food** and in particular a vegan diet! If buying anything not fresh then check the labels and do your research, as many manufacturers do not put fluoride **on the labels**. (See our newsletter on Organic Foods).

What can you replace fluorinated water with? You can find **Reverse Osmosis Water**, utilize Activated Alumina Defluoridation Filters, make your own distilled water or for the best option find 100% Filtered Pure “Living” Water. (See out Newsletter on Water to explain about each of these)

Fluoridated water cannot be removed through most **popular water filters**, boiling water, freezing water or most bottled waters.

Protecting your teeth and gums are not that difficult but it requires the “Right” diet. In addition brushing your teeth with all **natural organic products**, flossing, and limiting sugar intake are all key. Here are five natural answers to having optimal oral health: 1) Neem Oil (reduces plaque and gingivitis) 2) **Coconut Oil** (antibacterial & antifungal), Ozonated Olive Oil, Oregano Oil (used to soothe toothaches, abscesses, and mouth sores), Myrrh (Used to combat bad breath and gum disease).

To replace fluoride toothpaste you can use the following natural toothpastes: Sea Salt, Baking Soda, Hydrogen Peroxide, Herbal Tooth Powders, Dry Brushing, Brushing with pure Water, Tooth Soap, Essential Oils, Oil Pulling (see out Newsletter on Hygiene for many more natural suggestions)

Detoxifying fluoride from your body can be challenging, but it is a process that can help alleviate the massive build up of this toxic chemical. To detox your body and remove

fluoride there are several very effective natural protocols most of which include:

- **Vitamin C**
- Nascent Iodine
- **Magnesium**
- Holy basil
- Boron
- Curcumin
- Tamarind
- Sea Salt
- **Oregano Oil**
- Chlorella, spirulina, and wheatgrass
- Apple Cider Vinegar

Several other really important things to make sure you do to handle eliminating toxins including fluoride are:

Keep your **liver clean** and your bile flowing so your body has a clear pathway to eliminate fluoride. Liver cleanses are very effective for eliminating not only fluoride but also other toxins that congregate in the liver. **Chelation** therapies are also recommended for removing heavy metals from including fluoride.

Utilize Dry Saunas - As with many other toxic substances, a powerful dry sauna session can help to excrete sodium fluoride from fatty tissues. Be sure to drink up on purified water to replenish yourself afterwards.

Exercise – Exercise is excellent at allowing the body to eliminate all types of toxins, including fluoride, from the **body in sweat**.

The below Research Links will provide you with a lot of very in depth information about how to avoid Fluoride, how to detox from fluoride and solutions to natural alternatives to Fluoride:

Fluoride has an Enormously Damaging impact Physically, Mentally, Emotionally and Spiritually!

Fluoride has **devastating developmental effects** on children beginning with pregnancy and continuing through the developmental phases of childhood. Beside the physical effects, as a developmental neurotoxin (substance that's poisonous or destructive to the tissues in the brain, spinal cord and nervous system), Fluoride causes many mental and learning disorders..

Some of the other emotional, mental and spiritual impacts of fluoride are:

- Psychotic, aggressive and violent behavior
- **Lowers IQ**
- Alzheimer's

- Hypothyroidism – which causes Brain fog, memory loss, lack of focus, depression, anxiety, and other **cognitive and mental** health issues are some of the most problematic side effects of thyroid disorders.

(Cont. on next page)

Fluoride has an Enormously Damaging impact Physically, Mentally, Emotionally and Spiritually! (Cont.)

• **Degeneration** to the hippocampus (critical for learning, emotional regulation, and shutting off the stress response), the neocortex (the most evolved area of the brain where **sensory perception**, conscious thought and language skills largely take place), and the cerebellum (is responsible for coordination and balance).

• **Calcifies and damages the pineal gland** (produces melatonin which helps regulate sleep patterns and influencing sexual development and connects us to our dream and spiritual dimensions)

Fluoride's **dangerous** impact on us physically, mentally and emotionally is being proven by more and more studies. As always, when a toxin impacts us physically, mentally and the emotionally it is more difficult for us to hear the **quiet voice of our soul** and feel connected to the Universe and Creation. The calcification and damage to our pineal gland (or in most spiritual texts referred to as the 3rd eye) only decreases our ability to hear and respond to any other spiritual realms.
